W. C. T. U. Notes.

Miss Bets Davis, of Winchester, State Secretary W. C. T. U. Parlor Meetings will attend the convention, commencing the 33rd.

One of the broadest fields for good in the W. C. T. U. is their department for prison work, which will be thoroughly discussed in the coming convention.

The President of the local W. C. T. U. requests a full attendance next Saturday afternoon as it will be the last meeting before the convention.

Mrs. T. F. Rogers, President of our local W. C. T. U. will entertain the State President, Mrs. Frances E. Beauchamp, of Lexington during the convention.

All the ladies of our town who will kindly assist in entertaining delegates to the W. C. T. U. convention will give their names to Mrs. Priest, Recording Secretary of local union.

The Mother's Meeting, which is quite a feature of the W. C. T. U. work will be conducted during the convention by the State Secretary, Miss Kate Klein, of Winchester.

The names of the bright women delegates to W. C. T. U. Convention are beginning to arrive from Winchester, Augusta, Williamstown and many other places. A full list will be given later.

Last week the ADVOCATE Publishing Company sent out from its job office one thousand copies of the Minutes of Christian Woman's Board of Missions and the Kentucky Christian Missionary Convention, which was held at Georgetown. They made a book of sixty-nine pages.

The Gazette Feels Called Upon to
Speak out and She Does.

It is not the "Sound Money Democrats" that the Gazette cares a fig for when it asks what they think when the "Advocate says 'that fellow,'" but it is Breckinridge its heart goes out for. What a wonderful change has come over our dear brother "Jonnie." The following paragraph in the Gazette editorial columns furnishes the explanation:

"Judge George Denny has issued a card withdrawing from the race for Congress in the Seventh District. As the Republicans have no candidate the election of Col. Breckinridge is almost a certainty."

The Gazette would be for "that fellow?" Aye? Well, Brother Jonnie, you have got him. Strange bedfellow, indeed. He is a good one of the kind and it is possible you can use him; we can't.

Public Speaking.

Hon. John H. Flood, Jr., of Lexington, will address the citizens of Montgomery county in the interest of Bryan, Sewall and Fitzpatrick, Monday, October 26th, at 2 o'clock p. m. Mr. Flood is thoroughly posted on the money question and should have a large crowd.

There is indeed a treat in store for those of our citizens who enjoy both oratory and profound argument, at one of the ablest and most eloquent men of the nation, Hon. William J. Stone, Governor of Missouri, will address the people of this county in behalf of Bryan and true Democracy at Mt. Sterling, Ky., October 19th (County Court-day). Governor Stone is the gentleman who made the great speech in New York City notifying William Jennings Bryan of his nomination for President by the Democratic convention.

A JUST JUDGE.

Who Regards Right and Justice
Above Party.

Last week Judge H. Clay Howard, of the Bourbon County Court, rendered a decision in the case of Dutton & Co. against A. T. Forsythe, which will be regarded as a just precedent and an example for other Judges for such appointments.

Judge Howard had appointed Forsythe an election officer, believing at the time he had appointed two Republicans and two Democrats, but it turned out that Forsythe had become a third party man and was no longer a Democrat, and upon affidavit of Dutton & Co., Judge Howard, after hearing of arguments of counsel, removed Forsythe and appointed a Democrat.

Forsythe, when he changed his politics, should have done like Frank L. Baehm of St. Louis, who, having been appointed Republican Judge, changed his politics and wrote to the one having appointing power saying he had decided to affiliate with the Democratic party, and asked that he remove him and appoint a Republican.

A Desirable Standard.

"The Republican platform pledges the Republican party to get rid of the gold standard, and to substitute the double standard just as soon as other nations will let us. We insist that if the gold standard is a good thing we ought to maintain it, not temporarily, but permanently. If the gold standard is desirable the American people ought to be allowed to have it, not for a year or four years, but forever, and if the gold standard is so bad that we ought to ask other nations to help us to get rid of it, then it is so bad that we ought to get rid of it whether other nations will help us or not."—W. J. Bryan.

Simon Holleran, an aged resident of this county and town for many years died at his home on Willow Street on Friday. His funeral services were held at St. Patrick's Church on Sunday morning, after which the remains were laid to rest in St. Thomas' Cemetery.

Fads in Medicine.

There are fads in medicine as in everything else and a "new thing" frequently sells for a time simply because it is new. But in medicine as in nothing else, the people demand and will be satisfied only with positive, absolute merit. The fact that Hood's Sarsaparilla has stood its ground against all competition, and its sales have never wavered, but have remained steadily at the top, demonstrates, beyond any doubt, the intrinsic virtues of this medicine. The new things have come and gone but Hood's Sarsaparilla rests upon the solid foundation of absolute merit and its power to cure, and its sales continue to be the largest in the world.

The cloak opening on Saturday at Grubbs & Hazelrigg's was largely attended. The firm can fill orders for any pattern on exhibition.

We regret to announce that Thos. F. Hargis, of Louisville, has canceled his engagement to speak here this afternoon.

On Monday, May 27, 1878, at North Bend, Ind., John Scott Harrison, the venerable father of ex-President Benjamin Harrison, died. The burial was on Wednesday. Soon after the burial the discovery was made that the grave had been robbed. The body had been stolen. Investigation followed. The body was found suspended in the Ohio Medical College in Cincinnati. All hope of detecting the perpetrator of such an act was, after long search, abandoned. Recently in Bellevue Hospital, New York, a death-bed confession revealed the man who was so depraved as to disturb the remains of one who had fallen asleep. The name of the grave-rober is Carabonne Torriani. For many years he has followed this business, it was while robbing a grave that he contracted blood poisoning which resulted in his death.

DEMOCRATIC RALLIES

In the Several Precincts of
Montgomery County.

At the following times and places there will be held rallies of the Democratic voters of the precincts of Montgomery county. All Democrats and believers in the free coinage of silver should attend and make each occasion as notable one and productive of good results for the Democratic nominees, Bryan and Sewall, the champions of the people's cause:

Harts, (Bridge School House), Tuesday night, October 13.
Jeffersonville, Thursday night, October 15.
Spencer Station, Saturday night, October 17.

Levee, Tuesday night, October 20.
Camargo, Thursday night, October 22.

Aaron's Run, Saturday night, October 24.

Good speakers will be present on each occasion.

Louisville Tobacco Market.

Sales on our market for the week just closed amount to 2947 hds, with receipts for the same period 1923 hds. Sales on our market since January 1, amount to 138,180 hds. Sales of the crop of 1895 on our market to this date amount to 133,119 hds.

The offerings of burley tobacco this week have been very poor in quality. The good to fine grades and the medium clean reils in good condition have sold fully up to prices current for some time past, but all other sorts were irregular and easier until Friday when the market was active and prices somewhat better for these latter grades. There has been a few hds of new burley sold this week the quality of which has been poor and prices low.

The following quotations fairly represent our market for burley tobacco 1895 crop.

Trash. (Dark or damaged tobacco) \$1.00 to \$1.50.

Common colony trash, \$2.00 to \$3.50.

Medium to good colony trash, \$3.50 to \$5.00.

Common lugs, not colony, \$2.00 to \$3.00.

Common colony lugs, \$4.00 to \$6.00.

Medium to good colony lugs, \$6.00 to \$8.00.

Common to medium leaf \$5.00 to \$7.00.

Medium to fine leaf, \$12 to \$15.

Good to fine leaf, \$15 to \$20.

Sheet wrappers leaf, \$15 to \$20.

The above quotations are not applicable to green and frosted crops.

GLOVER & DURRITT.

Marvelous Results.

From a letter written by Rev. J. Gunderman, of Dimondale, Mich., we are permitted to make this extract: "I have no hesitation in recommending Dr. King's New Discovery, as the results were almost marvelous in the case of my wife. While I was pastor of the Baptist church at River Junction she was brought down with pneumonia succeeding La Grippe. Terrible paroxysms of coughing would last hours, with little interruption and it seemed as if she could not survive them. A friend recommended Dr. King's New Discovery; it was quick in its work and highly satisfactory in results." Trial bottles sent at Wm. S. Lloyd's Drug Store. Regular size 50 cents and \$1.00.

Wonderful.

The long distance telephone conveyed to hundreds of men in distant cities the enthusiastic shouts of Wm. J. Bryan's friends in Chicago, on Friday. The editors and employees of the Louisville papers could hear the tramp of men in the procession. The strains of "The Star Spangled Banner" were distinctly heard; cheering, wild and tumultuous, was heard as if near by. "Hurrah for Bryan! Three cheers for the workman's friend," etc., and the music of passing bands made Louisville people feel like they were in Chicago.

Dr. Robert N. Barrett, Baptist pastor at Ashland, delivered an illustrated lecture at the Baptist church last Friday evening, subject, "Japan." Dr. Barrett is an authority of no mean reputation. His two principle works are "The Child of the Ganges" and "The Land of the Sunrise." Whenever a lecturer comes into our midst to tell of foreign lands, their people, customs, etc., we should attend, for such lectures are usually interesting and instructive.

Marvelous!

The results attained right here at home have been marvelous. Hundreds of your neighbors who have used Wright's Celery Capsules say so. They cure Kidney, Liver and Stomach trouble, Rheumatism, Constipation and Sick Headaches. Why pay \$1 every two weeks for a bottle of medicine when you can get treatment at 1 cent a day. Wright's Celery Capsules give 100 days of treatment for \$1.00 backed by a bank, to cure you or refund your money. Sold by W. S. Lloyd Drugist.

Lost.

On last Saturday evening on the pike between Camargo and Mt. Sterling, R. S. Stokley, of Jeffersonville, lost a pocket book containing \$36. A liberal reward will be paid for its recovery.

I have discharged Spencer Johnson as superintendent of my blacksmith and repair shop. He is unauthorized to collect any of the accounts and the public is notified not to pay any accounts.

STARTLING

THE ADMISSION FROM A PREJUDICED ORGAN.

New York Herald's Table a Virtual Admission of Bryan's Election—Got Seven States Wrong, However.

The New York Herald of Sunday, Oct. 4th, published some figures on the probable Presidential result that have filled the McKinley supporters with alarm. The Herald has strongly opposed Bryan, and would certainly not accord to him more than the indications warranted. While the figures indicate McKinley's election by a narrow margin, the result is reached by giving the Canton masses that he has little or no chance of carrying. Really, it is a confession that Bryan's election is not only probable but, almost sure. In other words, McKinley, according to the Herald, is gone if he loses Indiana or Illinois, and even granting him liberal concessions, besides these two states, he will have to win in Kentucky to have more than one majority.

To reach this result the Herald also accords McKinley the votes of Connecticut, Delaware, Iowa, Maryland, Minnesota, New Jersey, New York, and Wisconsin, either one of which may give the Republicans an unpleasant surprise and prove fatal to their calculations. Those on the inside of Bryan's campaign have no doubt of carrying California, Colorado, Idaho, Kansas, Michigan, Montana, Nebraska, Nevada, North Dakota, Utah, Washington, West Virginia and Wyoming, and the Herald's canvas shows that these claims are well based.—The Argonaut.

To Paint Frost Tinted Foliage.

To paint a group of leaves just touched by the frost is not easy, but the variety of coloring in them is beautiful, the reddish tints in them being especially effective. For the leaves turned yellow at the edges, mix yellow ochre with white. For the pale green tints toward the center add to pale lemon yellow some ivory black; glaze here and there with raw sienna. A gray green can be made with yellow ochre, cobalt blue and white, add raw umber in the shadows. A rich green can be made with light cadmium and indigo. For a brighter green substitute Prussian blue for the indigo. For the reddish tints crimson make slightly modified with raw umber is good, while burnt sienna gives the rich, bright brown tone into which the crimson generally merges. When the greens are too bright in parts glaze them with ivory black. When too gray glaze with raw or burnt sienna, according to the tone desired.—Ladies' Home Journal.

Deaths.

Miss Margaret Alexander, daughter of George B. Alexander, of Bourbon, died at Macon, Ga., of typhoid fever. Funeral was held at Paris, on last Saturday.

Edward Breen, who during a political difficulty in Fleming county was stabbed by Robert McDonald, died on Thursday.

George Talbot, of Cynthiana, uncle of Mrs. Wm. A. Durham, died on Saturday, Oct. 10. Buried on Monday. Mr. and Mrs. Durham attended the funeral.

In the early hours of Friday morning near Noblesville, Indiana, Albert Bray, a farmer, killed his wife, two children, Carl, aged 9, and Edna, aged 2 years, and himself. An axe and razor were used. It is said that financial troubles and sickness in his family for some months had affected his mind.

The Richmond, Nicholasville, Irvine & Beattyville railroad was not sold at Vernalis on Saturday. The U. S. Court at Louisville granted an extension. The Reorganization Committee hope soon to reach an agreement with stockholders and bondholders.

TRUTH NOT IN THEM.

Metropolitan Papers Pander to How Silver Demoralization Has Destroyed American Industries.

With But Few Exceptions the Big Dailies Have Been Choked Into Declaring for Mark Hanna and the Gold Standard.

National Democratic and Silver Headquarters, Chicago, Sept. 16, 1896.—For the first time in the history of the United States the greedy hand of the usurer is at the throat of the press. With a few courageous and honorable exceptions, the metropolitan papers have been choked into a declaration for Mark Hanna and the gold standard. Their columns are filled with sophistry, with evasion, and with lies.

At the dictation of the banks which own mortgages on their plants, and therefore on their profits, these newspapers have hoisted the American flag in behalf of monopoly, and beneath its sacred folds charge the patriotic majority of the American people with repudiation, dishonesty and anarchy. The truth is not in them. At the command of the bankers they do not hesitate to stultify their honest declaration of an honorable past. They suppress all news calculated to enable the people to render a fair decision at the November election. There are two sides to the money question, but they do not present even their own side or rather that of their owners and masters—and present it fairly.

Mark Hanna does not own or control this paper. Wall street controls, with a few exceptions, the great newspapers of New York, Boston, Philadelphia, Chicago and other centers of population and wealth, but there is as yet no power in organized monopoly which can entirely suppress the publication of truth. Thanks to the independent and fearless press of the smaller cities, there are yet clads from which shot and steel can be poured into the ranks of the usurers who now aspire to political supremacy.

It will be the province of this paper to tell the truth. The truth is good enough in this campaign. If the American people can become acquainted with the undisputed facts, Wall street will not carry a county in the United States. No statement will be given publicly until it has been thoroughly investigated and its accuracy established. Nothing will be suppressed. Things will be called by their right names. If a man steals he is a thief. If he utters an untruth he is a liar. If he indulges in cant he is a hypocrite.

It is time for plain talking. With an audacity unparalleled a clique of gold lenders is attempting to forever bind the hands of the American people. Emboldened by past triumphs, with an appetite whetted by successive raids on the United States treasury, they have thrown discredit on the winds and are fighting in the open.

Hanna, the unspeakable Hanna, has come out from behind the screen and is commander in chief. He is the possessor of William McKinley's notes for a large amount and proposes to collect them, by grace of the voters of the United States. He is helping him? Payne, of Milwaukee—Payne, the sworn enemy of labor; Payne, the man on whom the outraged citizens of Milwaukee placed a boycott and walked for weeks rather than ride in his street cars. Who else is on Hanna's staff? Yes, that is right, Chicago; H. C. Frick, of Homestead; Thurston, of Omaha, the senatorial lobbyist of the Union Pacific road. Every man who ever plundered labor or evicted a workman is arrayed on the side of Hanna and an English gold standard.

MCKINLEY QUOTED.

Bryan Tells What He Said in a Speech in 1891.

Mr. Bryan in a recent speech, said: "And in 1891, on the 12th of February, in Memorial hall, at Toledo, O., at the Lincoln day banquet, the present candidate for president upon the republican ticket, told me that one of our great producers, discreditable, which I shall now read to you. I have found these words published in a Toledo paper, and they have been published so long without correction that we may safely assume that he was correctly reported."

"These are the words which he is said to have said: 'During the age of Grover Cleveland's years at the head of the government he was dishonoring one of our precious metals, one of our great producers, discreditable, and enhancing the price of gold. He endeavored even before his inauguration to stop the coinage of silver dollars, and afterward, and to the end of his administration, persistently used his power to that end. He was endeavoring to convert the circulating medium and demoralize one of the coins of commerce, limit the volume of money among the people, make money scarce and thereby drive it to the hands of the few. He would have increased the value of every thing else—the servant's'."

"Following these same lines the republican convention in 1892 declared at Minneapolis that the American people from tradition and interest were in favor of bimetallicism. That is the language of 1892—that the American people from tradition and interest are in favor of bimetallicism. Have traditions changed in four years? No, my friends, and yet, forgetting the platform of 1892, forgetting the platform of 1892, the republican party in convention assembled decided that the American people must forget the ad-

PROVING THE CRIME.

How Silver Demoralization Has Destroyed American Industries.

American Farmers and Producers Legally Robbed for the Benefit of European Shylocks—Victims of British-Backed Money.

The following facts and the legitimate deductions drawn from them are worth the careful consideration of every farmer, laborer, mechanic and thoughtful citizen.

Silver in 1873 was worth \$1.25 per ounce, caused by French mints belonging to Europe to coinage at \$1.25 the par value of sixteen to one was then \$20.00.

Silver in 1896 is worth 66 cents per ounce, caused by closing the mints to coinage for the public.

How It Affects the Farmer. How this decline in the value of silver affects the farmer may be shown by taking wheat as an illustration. A bushel of wheat was worth in India in 1873 one ounce of silver, or \$1.25. In 1896 the bushel of wheat was still worth one ounce of silver, but the ounce of silver, through operations of the shylocks, was worth only 66 cents. The following comparison puts the matter more clearly and shows the extraordinary decline in prices:

Cost in India.	100.
Ocean freight and charges.	1.25
1.7 Selling price in Liverpool.	101.25
2.7 Freight and charges from Chicago.	104.00
1.7 Price in Chicago.	105.75
2.7 Freight and charges from Iowa.	108.50
96 Price in Iowa.	118.15

As all our exports to Europe are sold in competition with silver-carrying countries, the decline in prices, it is estimated, makes a difference in the value of a farmer's produce of nearly \$1,000,000,000 (one thousand millions) annually. The American farmer and miner loses that sum.

The European manufacturers and tradesmen gain that sum.

They cannot get food products and raw materials for manufacture at half price if they cannot get silver at half price. They cannot compete with American manufacturers in the markets of the world and thereby lose that advantage. We are selling all products that are in competition with silver-carrying countries, on the silver basis of Europe, and that equals a loss for all of such products.

We are taking European goods in exchange for our products on the gold basis of Europe, and that equals a loss at all prices here, except as modified by our tariff.

This policy cannot be long continued without impoverishing American farmers and destroying the value of their property. It will force them to the plantations of Europe and expel them as the people with whom they must compete.

Demoralization the Result. With silver currency reduced, not only will every coined dollar be the equivalent of gold, but the price of every ounce of silver bullion and of every ounce of silver coinage products will be advanced in proportion.

The United States is now the chief producer of silver, and it is in position to restore silver coinage. Restoring silver coinage as in 1872 will restore prices as in 1872.

English influence and English necessity secured demoralization in 1872. English influence for England's advantage has maintained it until the present time.

Tested Robbery Must Cease. Give back to our farmers and miners the \$1,000,000,000 a year and it will make a market for our factories and give employment at good prices for our mechanics and laborers.

Common justice demands that the legal robbery of \$100,000,000 a year for the benefit of this and other governments shall cease. And while such robbery begins with the miner, it immediately involves every real wealth-producer in the United States.

No factory is ever closed when it can sell its products at a profit.

You cannot start factories by destroying the purchasing power of more than half the people.

Gold Standard Destructive. If consumers cannot buy at present they surely cannot if the prices of manufactured goods are to be advanced by a higher tariff.

A continuing drain of the gold standard means—and it can mean nothing else—yet lower prices; yet more suffering.

Wall street represents England. Bankers everywhere are under the dictation of Wall street. They have assisted to establish the ruinous policy and are helping to maintain it.

It means destruction to the American industry. But the people are beginning to see how they have been robbed and footed are crushed. The day of deliverance is near at hand.

A Firm Stand for Silver. The popular colored cartoon paper, Up-to-date, which has heretofore been neutral politically, in its present issue announces to the world its purpose to do everything it sees its pages heartily to the cause of Bryan and bimetallicism. This endorsement of the silver party is of much importance, since Up-to-date is a high-class periodical, ably edited, and has a circulation of over 100,000, exclusive of all parts of the country. Being conducted and edited by western energy and brains it will no doubt prove a worthy competitor of the eastern gold-carrying papers, its present circulation being greater than that of any other cartoon paper in the United States. In the cause of American financial independence and the election of Bryan it will certainly prove a power and a vote winner.

Conclusion once asserted that the following facts and the legitimate deductions drawn from them are worth the careful consideration of every farmer, laborer, mechanic and thoughtful citizen.

Silver in 1873 was worth \$1.25 per ounce, caused by French mints belonging to Europe to coinage at \$1.25 the par value of sixteen to one was then \$20.00. Silver in 1896 is worth 66 cents per ounce, caused by closing the mints to coinage for the public. How It Affects the Farmer. How this decline in the value of silver affects the farmer may be shown by taking wheat as an illustration. A bushel of wheat was worth in India in 1873 one ounce of silver, or \$1.25. In 1896 the bushel of wheat was still worth one ounce of silver, but the ounce of silver, through operations of the shylocks, was worth only 66 cents. The following comparison puts the matter more clearly and shows the extraordinary decline in prices:

Steel vs. Cast Iron.

Steel has succeeded iron in all structural work where the greatest strength and durability are required. The old-fashioned cast-iron stove has made way for the

Majestic Steel Range

which is made of cold-rolled steel (the strongest steel) and malleable iron (iron that by an expensive process, is made unbreakable), and the whole construction is riveted by hand (the honest way).

The Majestic is built on honor to last the user a lifetime—a long lifetime.

LETTERS TO SIMPSON.

Epistles Show How Principles of Kansas Republicans Have Changed.

In 1892 James M. Simpson was chairman of the Republican State Committee, as he is now. He was the author of the motto: "Stand up for Kansas," used in the campaign of that year. The Republicans are not using the motto this year. Up of 1892 John Madsen, now the "land" of the allied silver forces for Congressman in the Fourth district, was a Republican. Simpson addressed a letter to him, asking him to make some speeches for the Republican ticket. Here are a few paragraphs from Madsen's reply:

"I have always been opposed to the protection of free class of men at the expense of the great wealth-producing masses, and never supposed any party would be short-sighted enough to attempt a thing of that kind. I find I have been mistaken, like thousands of other men who have been voting with the Republican party, and we see our brethren of the producing and laboring classes surmounted by conditions which are absolutely appalling, and great question now is to save them before it is too late."

"The motto 'stand up for Kansas,' on your letter head, in view of the condition to which the tolling masses have been reduced, in view of the fact that your political system has contracted the people's money so that obligations can not be paid; in view of the fact that homes are being sold under mortgages and passing into the hands of syndicates; in view of the fact that the people have been robbed by railroad corporations and transportation lines; in view of the fact that trusts and combines control the people's market and get what is left; in view of the fact that you passed an infamous law extending a municipal aid to railroads, and now a great number of the counties of Kansas are reeling in the sleep of death under bonds voted by hired voters of the companies through the operation of such a law; in view of the fact that such a system of municipal aid has been maintained, even when its repeal was urged by your patriotic Governor, John A. Martin; in view of the fact that our immense wheat crop of this year is being largely absorbed by the railroads and wheat combines; in view of the fact that the most industries can scarcely maintain themselves and families, the motto, 'Stand up for Kansas,' is unnatural, inhuman, and ghastly, and sounds like the hollow mockery of winds blowing over graves."

"You say you want speakers 'capable of expounding party doctrine, and especially the magnificent services which the present administration has rendered the farmers and laboring men of the country.'"

"As you know, four years ago, as the President of the State of Kansas, I cast my vote for Benjamin Harrison. I hoped then a change of administration would benefit the country and lighten some of the burdens resting upon the people. In the campaign of that year I advised the barefooted men whom I met at political meetings in Western Kansas to vote for Republican supremacy. I shall never forget the pathos of some of those gatherings, when I stood in the presence of tall, brown men and women whose faces indicated that they needed bread. With these things in mind, and deeply impressed as I am with the frightful conditions of the people, I am in no mood to expound the 'magnificent services' which you say the administration has rendered the people."

"If the services have been as you claim, the people need not be told of them, as results would speak for themselves. The fact is the administration has rendered 'magnificent services,' not to the farmers and laborers, but to the Carnegies, with their Plukertons; to the McLeods, with their coal trusts; to the Armours, with their beet combines; and the Goulds with their railroad systems; and in fact, all of the many agencies formed for the purpose of controlling the output of the mines, the shops, the fields and the farms."

"Your tariff theories are surface questions and very incomplete, because you do not take into account the social questions and inequalities of adjustments that lie back of the theory of protection. Your idea of government is force. Your idea of money belongs to the paganism of the past. Your idea of wealth distribution is centered in corporations, trusts,

Resulting in poor memory, irritability, nervous and intellectual exhaustion. It induces other forms of disease, such as epilepsy, heart disease, apoplexy, insanity, etc. Dr. Miles' Nervine Cures.

Mr. Chas. A. Myers, 20 Hanna St., Fort Wayne, Ind., writes Oct. 7, 1896: "I suffered terribly with severe headaches, dizziness, backache and nervousness, gradually growing worse until my life was despaired of, and what was worse, I found no relief until I commenced using Dr. Miles' Nervine. I have taken five bottles and believe I am a well woman, and I have taken great comfort in recommending all of my friends to use Nervine. You may have taken great comfort in what I wish, and I hope it may be the means of saving some other sick mother's life, as it did mine."

combines and transportation lines. Your idea of land is not new, which is the primary one, but ownership in large bodies by a landlord class. Finally, your ideas of individual liberty are so strongly repulsive that men tremble when they face the future, knowing that a long course of repressive legislation creating unequal conditions, must wipe out the now powerful middle class, which is the balance wheel of our civilization, and drive the two extremes of society—the millionaires and anarchists—into two hostile camps, between which no white flag can pass and no herald can proclaim peace. To prevent such a condition of things, it is the duty of every citizen to labor unceasingly and untiringly to bring about an equality of conditions and a wise and humane administration of law, a law which extends 'equal rights to all and special privileges to none.'—Kansas City Times.

How Long Will the Massacre be Permitted By the Powers.

The Turkish question still hangs in abeyance. England is advised with excitement and indignation. The public press, the clergy, non-officials of every class are loud in their demands for immediate action by the British government, with the other Powers if possible, if not, then independently. Mr. Gladstone has come out more emphatically than ever in denunciation not only of the Turkish massacre at Yildiz, but of the concert of the Powers which, by its inactivity, has won the contempt of the civilized world—Independent.

What the British people demand of their government in regard to the Turkish atrocities is commendable. If England is able to enforce these demands, why postpone action indefinitely, waiting to get consent from other nations. Independent action will, in all probability, enlist other nations to suppress the brutality of the Turks towards Christians, just as independent actions of the United States in the restoring of bimetalism will enlist other leading commercial nations to restore silver. God directs the destinies of nations. The wrath of man will be made to praise him. Let us remember the many thousands of Christians who for Christ's sake are being persecuted unto death.

During these days of intense political fevency and excitement it is well to remember that the overwhelming interests and the supreme issues are those connected with the salvation of immortal souls. We do not understand the political, economic, and monetary questions which our nation is called on anew to decide, but we do recognize that the consideration which outranks and which will outlive them all is that of salvation through Jesus Christ. As Christians people we shall strive to discharge our civil duties soberly, honestly, and in fear of God, but we shall remember that our spiritual duties must be carried forward with no abatement.

THE YOUNG MAN AS A CITIZEN

The Citizen Has No Right to be Neglectful of the Community's Welfare.

The Rev. Charles H. Parkhurst, D. D., treats of "The Young Man as a Citizen" in his article in the September Ladies' Home Journal. In defining the duties of citizenship he says: "A citizen has no more right to be neglectful of the interests of the civil whole in which he is a member than a parent or child has to be neglectful of the interests of the domestic whole in which he is a member. There is the same quality of un-Christian disregard involved in both cases, and whether a man lets his State shift for itself or whether he lets his family shift for itself, in the one instance as well as in the other, he is false to his corporate duty and is a despicable thief."

"The doctrine just enounced needs to be preached and pushed. A great deal of our political injury is due to the fact that men, who are fairly faithful in most of the relations in which they are placed, do not hesitate, and are not ashamed to be drones and rascals in their relation to the town or nation that they belong to. They would consider themselves reproaches were they to allow a neighbor to suffer abuse without an attempt at intervention, but would see their entire city, with all its machinery of government go to the dogs and the harp—a with-out one definite effort at rescue or one distinct thought that justice was wicked and inhuman. Nothing will correct this evil but the creation of a sentiment so energetic and pervasive that decent people will not have the cowardly audacity to neglect the primary duties that pertain to them in their civic capacity. Citizens will attend the primary, register and vote when the prevalent sentiment of attachment to our institutions is so pronounced and compelling, that failure to discharge the functions of a citizen will be branded as contemptible."

'Patriotism has come rather generally to be interpreted as a willingness to fight and die for one's country and its institutions. That sentiment is good for a definition of patriotism during times of war, but is generally deficient in that it allows no room for patriotism in times of peace. We should consider that a very cheap specimen of conjugal fidelity which puts a man upon caring for his wife and devoting himself to her necessities only on occasions when she was threatened by ruffians. A husband's love has its sphere of service at all times and in all situations. So has patriotism. Shooting one's National enemies is only a small and accidental part of the matter. What our country needs most is men who will love her—and not die for her, but live for her while there is shooting going on."

Mr. Bryn's Prediction

Cincinnati, O., Oct. 2.—I have no doubt of my election, and I have my confidence upon the fact that the free coinage sentiment is growing every day.

The people are studying the money question, and the study of it is convincing the people generally that there can be no permanent prosperity so long as the gold standard is maintained.

The gold standard makes a dealer's dollar; a dealer dollar means falling prices and falling prices means hard times. The people who profit by hard times are relatively so few in number that they would amount to nothing at all but for the fact that they are aided by a considerable number of people who, not having studied the money question themselves, have received instructions from a few financiers.

The number of Republicans who have declared for free silver outnumber the Democrats who have deserted the ticket; and, while the number of silver Republicans is increasing all the time, the number of bolting Democrats is all the time decreasing.

While I have no doubt of my election, I believe that every advocate of free silver should work from now on to election day to make the majority in the Electoral College so large that no party hereafter will ever dare to propose submission to a foreign financial policy.

Nerves

Are the Messengers of Sense, the Telegraph System of the human body.
Nerves extend from the brain to every part of the body and reach every organ.
Nerves are like fine good servants but hard masters.
Nerves are fed by the blood and are therefore life in character.
Nerves will be weak and exhausted if the blood is thin, pale and impure.
Nerve will surely be strong and steady if the blood is rich, red and vigorous.
Nerve find a true friend in Hood's Sarsaparilla because it makes rich, red blood, does their work naturally and well, the blood is unclouded, there are no neuritic pains, appetite and digestion are good, when you take

The tax-payers of the county belong to different political parties. All of whom have an interest in our public buildings—court house, hall and poor house. Neither party should claim nor have a monopoly of occupancy thereof. At times of such political interest or excitement, when every man wants to vote, there are few, any, party leaders who wish their followers to occupy the hall or poor house. Can we say this much concerning the court house, which, by custom, is used for public speaking? We think there should be a fair division of its use by the parties. A consideration of the rights and interests of all require this.

There need be no conflict if party leaders and those in charge of the court room will do what is right. We trust that the gentlemen who lead in these matters will so arrange their dates and hours for speaking that all who wish to speak will have an opportunity, and that there will be no unpleasant controversies, which tend to alienation of friendship. There is liable to be some conflicts of dates, yet as far as possible appointments should be made, not with the intention of shutting out the other side, but of doing to others as we would have others do to us. Let fairness prevail. Keep cool, gentlemen, and do not brand as revolutionaries, thieves, villains and anarchists those who are honest men who do not vote as you do.

Bronston Defeated!

In the recalled Congressional Convention at Frankfort last week Hon. Owen Settle, of Owen county received the nomination, thus defeating Messrs Bronston and Corroll. We hope he will now defeat the candidate representing the Republicans and other advocates of the English financial policy.

Public Speaking.

Hon. C. P. Chenault, Chairman of Democratic Campaign Committee for the Tenth Congressional District announces the following appointments of Democratic speakers who will stump the District in the interest of Bryan and Sewall and Fitzpatrick:

Hon. JOHN E. GARNER.
October 13th, Prestonsburg, Floyd county.
October 14th, Pikeville, Pike county.

October 15th, Williamson, W. Va., a Kentucky and Virginia line.

Hon. C. N. BOWLING.
Oct. 25th, Jackson, Breathitt Co.
JUDGE JOHN E. COOPER and HON. H. M. WOODFORD.

Oct. 15th, Flat Gap, Johnson Co.
Oct. 16th, Fairview, Johnson Co.
Oct. 17th, Prestonsburg, Floyd Co.
Oct. 18th, Pikeville, Pike Co.
Oct. 19th, Pikeville, Pike Co.
Oct. 20th, Pikeville, Pike Co.
Oct. 21st, Virgie, Pike Co.
Oct. 22nd, Hindman, Knott Co.
Oct. 23rd, Salyersville, Magoffin Co.
Oct. 24th, Crompton, Wolfe Co.
Oct. 25th, Maytown, Wayne Co.
Oct. 26th, Jackson, Breathitt Co.
Oct. 27th, Stanton, Powell Co.
Oct. 28th, Winstonsburg, Boone Co.
Oct. 29th, Winstonsburg, Boone Co.

HON. ROBERT FRANKLIN.
Oct. 6th, Stanton, Powell Co.
Oct. 6th, Clay City, Powell Co.

All speaking begins at 1 o'clock.

The desire and effort of some Republicans to divert the thoughts of the voters of this country to the tariff question has fallen very flat. The issue before the American people is, shall silver be restored to its position prior to 1873. Much helpful information is found under "Coinage Laws of the United States by Presidential Administrations." In another column.

The contract has been let for the new Commercial Hotel at Harrodsburg. The building will be four stories, with towers on each corner, water power elevator, waterworks, electric lights, electric bell system, telephone and other modern conveniences.

Two Propositions.

"Say, my friends, I submit these two propositions which I have repeated, thus and again, that if the gold standard is a good thing, then we ought to have it, but it is a bad thing, as the Republican platform expressly declares in promising to substitute something better for it, then, my friends, we ought to abandon it at once, whether other nations like it or not, whether they help us to abandon it or not. I want you to remember that we who advocate coinage at 16 to 1 are the only people who have a financial system that they are willing to present before the American people."—W. J. Bryan.

We recently called attention to some disturbances that had occurred at political speaking in different parts of the country. Strange, it is, that in a land where freedom of speech is supposed to prevail, that there can be found men who ordinarily would desire to be regarded as intelligent and refined who so far forget themselves and the proprieties which should exist between men, that they will endeavor to hiss and howl down or carry out men who advocate views in political questions at variance with their own. We are aware of the fact that unless there is a high regard for truth, editors and writers for papers, just like other men, will often give exaggerated, distorted and untrue reports of occurrences.

Making due allowance for partisan prejudice, which characterizes many utterances, we must again insist that if Democrats are not pleased with what is being said let them either withdraw from public assembly, or, remaining, treat with proper courtesy the man who speaks. She same applies to men of all political parties. Discretion should always be manifested, yet we admit the speaker who devoted to what is just and right and pure, has enough courage to condemn the wrong, even when surrounded by men whose impurity, rascality or falsehood he assails.

We have seen the article written by the Salyersville reporter for the Courier-Journal. While we do not know the facts of the speaking, interruption of the speakers, yet we wish to say that such disturbances will be used for political effect against the party accused of bringing on the trouble. Even in a town as small as Salyersville there could be speaking in different places at the same time or at same place at different hours of same day, if political parties are considerate of the rights of each other.

Died, Oct. 5th, at her home near Pilot View, Clark County, of congestive pneumonia, Mrs. Frances Hunt, in the eighty-eighth year of her age. She had eight children, all of whom survive her: S. P. Hunt, of this city; Mrs. James H. Hagard, Mrs. James J. Gilbert, J. D. Hunt, J. W. Hunt, G. W. Hunt, Mrs. W. D. Strode and Mrs. Kate Hunt, of Clark.

The funeral services were conducted at the residence of the deceased, by Rev. Wm. Ruppard, assisted by Rev. Messrs Bailey and French. For sixty-six years Mrs. Hunt had been a devoted member of the Old Baptist Church and for years past her membership has been with her beloved people at Goshen, Clark county.

An eulogy that we could offer to the memory of this noble, grand woman would be out of place, when she will always live in the hearts of those who knew her as having been first among women and first in all good deeds in the fields of work to which her Master called her. For 11 years since her beloved husband had been taken away she had been waiting and watching for him; and what more beautiful ending to this life could there have been than on that quiet day when the shadows of evening had just fallen, around her beloved home, that the messenger of death came in answer to her dying prayer, "Come, Lord Jesus, come quickly," and bore her away as a babe asleep to the realms where her pure, white, soul will have everlasting peace.

A large concourse of people, together with her children, grand-children and great-grandchildren followed her remains to their last resting place, the family burying ground.

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

T. J. Bigsfall has returned from Salyersville, Magoffin county, where he has been attending court. Mr. Bigsfall informs us that Magoffin county is almost solid for the silver metal, and that there is little showing for any candidate who does not favor bimetalism. The report that Col. Wood was not permitted to speak is a canard.

Judge Jerry D. Morton, of Lexington, made a good speech here Saturday in the interest of Democracy. Judge Morton is a teacher. Every statement made by him was the result of a conclusion from reasoning. Judge Morton made a fine impression, strengthening Democrats and putting those opposed to bimetalism to thinking. Such speeches as the one delivered by Judge Morton never fails to carry with it conviction.

Judge Day, M. C. Tyler and A. A. Hazelrigg, of your city, each made rousing campaign speeches at Grassy Lick Thursday night.

Seems as if all the things we like disagree with us, and all the things we don't like agree with us. Dyspepsia lurks in most of the good things we eat, and indigestion follows the gratification of appetite. Of course it isn't nature's fault. Nature does the best she can, and if a man will only help her a little bit at the right time, he may eat what he likes and as much as he likes. Dr. Pierce's Pleasant Pellets are for people who are troubled with indigestion. Particularly for those in whom it manifests itself in the form of constipation. The "Pellets" are easy and quick in their action. They are in perfect harmony with nature. They effect a permanent cure. You need take them regularly only a little while. After that, use them occasionally when you need them—when you have eaten anything that disagrees with you. They may be taken just as freely as you would take water or any other necessary fluid. Once used they are always in favor.
